

BALTIMORE HIT
BY SNOWSTORM

BALTIMORE, Md., June 1.—During a southeast gale and rainstorm snow fell in Baltimore this afternoon at one time for a half hour, and later for an interval of several minutes.

WOMEN AS COMPOSITORS.

Women composers of Christians and Bergen, Norway, are to be paid the same rates as men, after five years' apprenticeship and passing a test of full qualification.

Childhood Sweethearts,
Marry, As Parents Did

SEATTLE, Wash., June 1.—The marriage at Dayton, Ohio, of Amos L. Richardson, of Nashville, Tenn., and Mrs. Lucy Gillis, was the culmination of a pretty romance.

The couple were both born in North Carolina, and were reared together from childhood. All of their ancestors, as far back as can be remembered, were reared together, and all of them, as were these two, were boy and girl sweethearts.

Richardson is a retired farmer of Nashville, but at present he is interested in farming at the same place. He

has been married before, and has reared seven children, the youngest of whom is sixteen years old.

He was a very close friend of Gillis, who died over a year ago, and the two fought together in the Confederate army.

Mrs. Gillis, formerly Miss Lucy Cramp, of Ansonville, N. C., has lived in Dayton for many years.

The future home of Mr. and Mrs. Richardson has not yet been decided upon. They leave for Mr. Richardson's home in the South, and also expect to spend about two months at their old home in North Carolina.

WOMAN'S AUTO CLUB
STARTED AT CLARIDGE'S

LONDON, June 1.—An increasing number of English society women are becoming active automobilists, and an automobile club for ladies has been established at the very fashionable Claridge's Hotel, Mayfair. The Duchess of Sutherland, one of the busiest as well as one of the handsomest of the peeresses, finds time to act as president and to be a practical chauffeur.

Among other well-known women who drive their own machines are Lady Wimborne, the Baroness Campbell von Lauenburg, Mrs. Edward Kennard, the novelist; the Countess of Kinnoull,

SIX-FOOT BOY, AGED 17,
TO WED ORPHAN GIRL OF 22

PHILADELPHIA, June 1.—Although he is only seventeen years old, David R. Tomlin, youngest son of Andrew H. Tomlin, of 325 Woodland avenue, believes that he is able to support a wife, and has won the consent of his parents to marry Miss Elizabeth B. Brady, a boarder in the Tomlin home. Miss Brady is twenty-two years old.

The ceremony will be performed on Wednesday afternoon, by the Rev. I. M. Gable, pastor of the Woodland Methodist Episcopal Church, Fifth and

Woodland avenue, of which both young people are members.

The appearance of the bridegroom-to-be gives no indication of his youth. He is nearly six feet tall, broad-shouldered, and well developed. He says he is able to fight the battle of life. A little more than a year ago he met Miss Brady, who had lost both her parents. He coaxed his mother to invite her to live in the Tomlin home, and six months ago the invitation was accepted.

Mr. and Mrs. Tomlin readily consented to the marriage. The pair will continue to live at the Woodland avenue address.

The Bride of Today Is the
Housewife of Tomorrow

The great majority of American women do their own housework. The average bride immediately takes up the duties of the housewife and does the work herself.

Whether she likes housework or whether she learns to regard it as drudgery depends largely upon the equipment of the kitchen, for here it is that the work is heaviest.

The bride who commences her housework without a McDougall Kitchen Cabinet is starting on the wrong road. Without it she will work twice as hard, and waste money at that. The McDougall saves enough to pay for itself in the first year alone. After that, it pays a profit year after year—besides doing half the kitchen work.

No gift will mean more to her, or please her more, than a

McDougall Kitchen Cabinet

The McDougall lasts a lifetime, is better made, better finished, looks better, wears better, and is more sanitary and more convenient than any other cabinet.

Be Sure It's a
McDougall

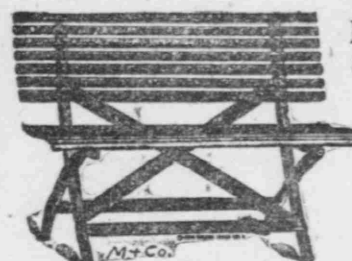

The genuine McDougall costs no more than most other cabinets. But anyone who will inspect the McDougalls on our floor before buying any other will see the difference in quality.

Grand Rapids Sectional
Bookcases

Notice from the illustration how differently these Grand Rapids Sectional Bookcases are constructed. No other bookcase made has these features. The sections are secured by an interlocking dovetail joint, doing away with all metal bands, castings, or screws, and forming practically a one-piece bookcase that can be enlarged at will. The Grand Rapids Sectional Bookcase is also THE ONLY SECTIONAL BOOKCASE THAT IS BUILT ON CASTORS, and can be moved about from place to place without disturbing its contents.

Made in quartered oak, weathered oak, or polished mahogany finish.
